The above table models a student's enrolment in the CIMA program, taking into consideration the following factors:

1. In this model, we assume that the student does not fail any of the exams. Should the student obtain exemptions, the exam fee will not be applicable. Exemptions are possible at the Certificate Level, and are free of charge.
2. CIMA reserves the right to raise the fees at any time.
3. CIMA fees are to be paid directly to CIMA.
4. CIMA registration, subscription and exam fees are set at current level (effective from 1 January 2024)
5. CIMA exam fees are approximate fees. Administration fees may be charged by certain exam centres.
6. Course and study material prices are exclusive of VAT.
7. BTA reserves the right to change course and/or study material prices.
8. New students pay a one-off registration fee, which includes their first years subscription fee. Note: The CIMA subscription year runs from 1st January until 31st December.
9. Existing students must ensure their subscription is paid before 31 March each year to prevent expiration.
10. For exams sat on or after 1 January 2024
